

## Climate Jingles

If stewards of  
the Earth we'd be,  
We must do more  
Than hug a tree.  
- Forward Kendal

Just between  
You and me,  
There really is  
No Planet B  
- Forward Kendal

Oceans are wide  
Mountains are tall,  
Single-use plastics  
are BAD for us ALL!  
- Forward Kendal

Single-use plastic?  
Let's cease and desist!  
The long term effects  
Will give our kids fits!  
- Forward Kendal

This planet needs  
Our help, I hear.  
Each step we take  
Deserves a CHEER!  
- Forward Kendal

The climate is under assault,  
And carbon is surely the fault!  
Let's each do our part.  
It's time now to start!  
And to rapidly bring this to halt!

The climate is changing, they say,  
So let's do our part every day  
To change our direction  
For all our protection  
The physics ain't goin' away

The pain's intense  
The costs are great.  
Bold action now!  
It's not too late.  
- Forward Kendal

For great-great-grands  
We must act NOW!  
Let each of us

Put hand to plow!  
- Forward Kendal

Climate Change  
Could wreck YOUR day -  
Extreme events  
Are on the way!  
- Be Prepared, Kendal

Heat and Cold,  
Fire and rain.  
Take action now  
So they won't reign!  
- Forward Kendal

Let's all help  
Improve the news  
Recycle your  
Plastic 1s & 2s  
- Sandra
